10 August 1946

David F. Thomas
Proctorville, Ohio

Dear Sir:

This is to verify your report of reception of WCNT on August 8, 1946. Your report is greatly appreciated and you had the honor of hearing our very first broadcast.

As soon as we set up a regular test schedule we will notify you of the time. We will go on regular operation about the 15 August.

Our transmitter is a new Gates BC-1E, working into a 220 ft. windcharger tower.

Yours truly,

Hobart G. Stephenson Jr.
Chief Engineer
